7 May 2024

Genflow Biosciences Plc

("Genflow" or "the Company")

FINAL RESULTS

Genflow Biosciences Plc (LSE:GENF) (OTCQB:GENFF) ("Genflow" or "the Company"), an emerging leader in the field of longevity research, focused on developing therapeutic solutions for the prevention of age-related diseases, is pleased to announce its final results for the year ended 31 December 2023. The Annual Report is available to view on the Company's website at www.genflowbio.com

The Company will post the Annual Report to shareholders and provide notice for its Annual General Meeting in the coming weeks.

Genflow is a UK-based biotechnology company focused on longevity and the development of therapies to counteract the effects of aging and diseases associated with advanced age. It is the first longevity biotechnology company to list in Europe and seeks to be a reference company in the European longevity sector.

About Genflow Biosciences

Founded in 2020, Genflow Biosciences Plc. (LSE:GENF) (OTCQB:GENFF), a biotechnology company headquartered in the UK with R&D facilities in Belgium, is pioneering gene therapies to decelerate the aging process, with the goal of promoting longer and healthier lives while mitigating the financial, emotional, and social impacts of a fast-growing aging global population. Genflow's lead compound, GF-1002, works through the delivery of a centenarian variant of the SIRT6 gene which has yielded promising preclinical results. Scheduled to begin in 2025, Genflow's clinical trial aims to explore the potential benefits of GF-1002 in treating non-alcoholic steatohepatitis (NASH), the most prevalent chronic liver disease for which there is no effective treatments. Please visit www.genflowbio.com and follow the Company on LinkedIn and Twitter/X.
